## Falc-Shredder/Collectors

Falc now offers a wide range of shredders that collect cut material so it can be removed from field. The elevated dump system allows material to be put onto truck bed or trailer. This makes it easy to remove prunings that might harbor pests and/or material for composting.

These very heavy duty collectors come in many sizes from 48" cutting widths to 72" in the "Jolly" range. Still larger models are found in Solex and Vortex series.
