Vineyard Crawler 40" wide 40 HP

This is an ideal vineyard crawler for narrow plantings overall width under 40" yet 40 HP, enough for any task from spading to spraying. With 883 square inches of tread on ground you have low ground pressure and plenty of traction. A Cat I 3pt. and 540 PTO lets you operate all vineyard implements. Priced about the same as high quality wheel tractors of similar dimensions. It is impressive in every way.
