Slightly Used Greens Harvester

Sold several years ago to customer who planned to change from table top growing to ground planting and then changed his mind and would now like to sell it.

Recent pictures show current, essentially new condition. In pictures machine is in transit mode i.e. raised off ground and with rear removable caster wheel in place.

Machine is on East Coast and can be bought for \$8,100; a savings of about \$1,900 over ordering a new one built and is ready to go to work immediately.
